One Zip Code Number For GC After Jan. 1

Starting Jan. 15, Granite City will have one ZIP code number instead of five, it was announced today by W. T. Overbeck, local postmaster. The number for all persons with a Granite City mailing address will be 62040.

The change results from a directive for streamlining the ZIP code system, which is to come after the Christmas mail rush is over.

Overbeck said firms with ZIP codes on printed letterheads can go ahead and use the present supply of stationery without any inconvenience to the post office.

Individual notices are being sent to every postal customer, the postmaster added.

He was a member of the Brotherhood of Locomotive Engineers and was a former member of the Nameoki Presbyterian Church. Survivors include his wife, Mrs. Beulah Emerson, Tarpon Springs; two daughters, Mrs. Melva Aufderheide, Canton, Ohio, and Mrs. Lorraine West, Sylvania, Ohio; two half brothers, Toby Anderson, Granite City, and Charles Anderson, East St. Louis; a half-sister, Mrs. Bessie Ratley, Alton; six grandchildren and several great-grandchildren. Over 200 at American 25-Year Club Banquet

The 22nd annual 25-Year Club banquet for American Steel Foundries was attended by over 200 members and 31 new members were added to the roll Monday night. Engraved watches were presented to the new members by A. P. Steinhilber, plant works manager.

The banquet was held at the Madison Memorial recreation center. New officers of the club are Paul Rutledge, president; Edward Devany, vice-president; and Helen Gilligan, secretary.

Woman Fajals at Door
Mrs. Mae Ashbridge, 279 Madison avenue, suffered a dizzy spell and fainted while answering her front door about 10 a.m. Wednesday. Strike at Venice

The union's demands and place the custodian back to work with pay retroactive for the layoff period." He added that the union janitor next in line on the seniority list also will be retained. Lindsey advised the teachers' union that a letter was delivered to him Tuesday morning from the Venice school authorities, stating that board members had considered their position from the previous evening and had agreed to reinstate the woman.

He also said back wages to the start of the 1965-1966 school term would be paid, with the exception of those days when the custodian was employed by the Venice schools in a substitute capacity during the illness of another custodian.

Heated Board Session

At Monday night's board session, which frequently erupted into heated exchanges, Lindsey charged school officials with failure to live up to a three-year contract, in effect since July 1, 1964, when Venice custodians were organized. He was joined in his discussion with board members by John Blina, a member of the Tri-City Trades and Labor Council's executive committee.

The dispute centered around dismissal of Mrs. Edna Hoult, a four-hours-a-day custodian who previously had worked since 1961 in a nine-month annual basis at the Lincoln elementary and high schools. Lindsey said her employment was terminated at the conclusion of the school term last May. At that time Venice school administrators decided to transfer remaining students from Lincoln high school to Venice high school and raise the building.

A second part-time custodian laid off at the same time, Lindsey said, did not enter the dispute as she has since moved from the school district. He contended that in several prior meetings with the board and during informal talks with Supt. John O. Pier, he had been told Mrs. Hoult would be rehired at the start of the school year.

Bus Driving Assignment

Board members said the next custodian on the seniority list was an eight-hours-a-day, 12-month worker, who doubled as a school bus driver for extra-curricular student transportation, such as driving basketball team members to road games.

Leatherman added that Mrs. Hoult was rehired briefly after the union first requested her reinstatement, but soon found unable to drive the bus when required. No job classification clause is included in Local 98's contract with the Venice district, it was noted.

Temper flared after the union representative charged the school system had transferred teachers along with the 115 high school students but had not resigned Mrs. Hoult. "Even though the janitorial work load obviously increased at the Venice school," Lindsey stressed. Supt. Pier replied that several of the transferred teachers had taken vacancies created by faculty members who had retired this year or moved to other jobs.

He added that employment on a four-hour daily basis for the same type of work was recently offered to Mrs. Hoult, but the union representative also had sought to increase her hours to six per day and place her on a 12-month schedule.

This request and back pay

were rejected by the board and Lindsey and Blina left the meeting for further negotiations or a strike deadline.

Plan Talks With Teachers

In other action, school board members agreed to set an early date for negotiations with representatives of the teachers' union involving proposed additional pay for extracurricular school activities. A second letter was sent to the teachers' union to confirm and take action on a "gentlemen's agreement" made last August in which the administration agreed verbally to study the request.

Supt. Pier said the extra pay requested had been included among several items discussed last April during contract negotiations when the board granted teachers a perfect attendance bonus of \$50 a semester and payment "accumulated unused sick leave time upon retirement."

He told the board that teachers provided assistance with many after-school activities and projects, which show benefits in student morale and in a greater degree of participation. He said numerous hours are spent on compiling the annual yearbook publication, sponsorship of various classes and the student council. Pier added that the union previously agreed to draw up a list of after-school jobs for board approval.

94% Pupil Attendance

Pier reported attendance percentages at Venice schools for November averaged: 94.68% Lincoln kindergarten, 88.34% Venice kindergarten; 94.29% Lincoln grade school; 94.98% Venice grade school; and 93.69% Venice high school.

He also said anticipated enrollment at Venice high school would exceed 275 pupils. Present student enrollment is 224.

Roy Musick, secretary, reported balances of \$4689 in the activity fund; \$1358, revolving fund; and \$2607, restricted fund. Amounts authorized for transfer from the working cash fund included \$35,000 to the educational fund, \$5000 to the bond fund and \$5779 to the bond and interest fund.

Monthly Bills

Monthly bills authorized for payment from the education fund included \$1548. Two bills withheld included \$132 for supplies from National Chemsearch Corp., held pending receipt of an itemized statement, and \$93 for Buxton & Skinner Co. storage files, returned to the firm as unsuitable.

Other items in the bill list included \$1829, Macmillan Publishing Co. textbooks; \$145, Chemsearch Corp., cheerleading outfits; \$179, Sunny Shields Music; \$115, Tri-City Printing Co., printing school records; \$889, Illinois Power Co.; \$183, Southwestern Bell Telephone Co.; and \$200, Dr. John E. Lee, dentist fees, and \$300, Dr. J. C. Ryers, physician fees, both for November.

Also paid from the education fund were: \$2119, teachers' retirement; \$1548, teachers' withholding tax; \$380, hospitalization; and \$254, Illinois municipal retirement fund. Lunch bills included \$431, Edray Foods; \$494, J&J Meats; \$129, Hank Svezia, vegetables and fruit; and \$503, Aro-Bredel Dairy Co.

Building fund expenses for November totaled \$4210 and included ABC Service Co., Granite City, \$1442 for repairs of wiring and wiring exhaust fan at Lincoln grade school cafeteria; A. of special education pupil.

Dr. B. B. Berman, member of the hospital advisory board and vice-president of the medical staff, said it was commendable that St. Elizabeth Hospital will be connected with a teaching institution as SIU.

1st New Type Slug Found in Vending Machine Tuesday

A slug designed after the new silver quarters turned up Tuesday in the coin box of the coffee vending machine in the YMCA.

It was turned over to the police department, and Chief of Detectives George Teller yesterday called in Secret Service agents of the U.S. Treasury Department.

The new slugs have appeared elsewhere in the surrounding area and are described as being of "poor quality." They have a copper inner core sandwiched between a nickel-like coating, and have an appearance of being stamped out of a sheet of metal.

Vending machine operators have been alerted to the use of the slugs and are making adjustments to coin rejection mechanism.

No estimate was made as to how great the slug minting problem is in the area, but Chief Teller pointed out that making such slugs for use as coins is a federal offense and punishable as a misdemeanor.

Receives Presidential Thank You Note

Mrs. Betty Davis, 2015 Lee avenue, has received a letter of thanks from President and Mrs. Lyndon B. Johnson in reply to a congratulatory message sent in the name of her son David Eugene Davis.

David's third birthday was observed on Nov. 17, the anniversary of the Johnsons' wedding anniversary.

MORE ABOUT

Assessor

member didn't call as a surprise and neither did this meeting."

Alderman Fry in supporting the increase said the assessor would provide full-time services to the township. Sternberg replied he had been told by the assessor-elect only a short time before the meeting that he would not be full time on the job.

Barton, who was in the audience, was not given permission to speak. He later told the Press-Record he plans to continue operation of his used car lot, but will devote all the time required to do the job as assessor.

Alderman Boyd, referring to the support given the increase by Fry, commented that the assessor had called for the assessor's expense allowances to be itemized and he wondered if the assessor would itemize his expenses.

Fry replied he believes expense allowances should be itemized but that the city council would have to start with its members before setting the requirement for other officials. He noted the itemization of aldermen's allowances was voted down by the council.

Alderman Thompson said he noticed considerable lobbying for the past few weeks and that he had been approached to support the increase. He added that the decision on the assessor salary had been made by the council six months ago.

MORE ABOUT New National

ated directly across Madison avenue from the Granite City senior high school.

Plans for erection of the new building and its occupancy by National Food Stores under a lease agreement were announced today by Harold Karandjef, president of the American National Bank, who is building the supermarket with his brothers, Ernest and Robert Karandjef.

Karandjef said the new store will be the first in the midwest to contain a complete drug store within the building, including pharmaceutical service.

Construction contracts have not yet been awarded, but discussions are under way with contractors and work is expected to start in a matter of a few weeks, Karandjef said.

Target date for completion of the new store is next May 1, he said. The building will be of brick and exterior will measure 140 by 140 feet.

National Food Stores now operates a supermarket at 2239 Madison avenue.

Roca Cites Rink Value to Young People of Area

The many ways in which a new rink-recreation center could be used by young Granite City residents were discussed Tuesday night by members of the Roca Young Men's club after a talk on the Dec. 18 rink-recreation center.

Urging them to ask their parents to vote "Yes" on the park district project, Attorney Irvin State asserted that "on Dec. 18 the people of Granite City will have an opportunity to vote favorably on a beautiful and useful addition to our community."

State said voting will take place from 6 a.m. to 6 p.m. on Saturday, Dec. 18, and commented that the proposed recreation center would provide "culture and recreation for each family; healthful winter sports; a local, year-around leisure-hour entertainment center; and an attractive center for public gatherings, large or small."

Advisor Earl Parsons noted that park commissioners legally do not have to submit the proposal to the public but want to do so to give citizens a voice in the plan.

Hockey games, student club activities, athletic meetings, teenage programs, scouting events and various exhibitions were cited by Roca members as among the ways in which the center can be used.

GC Group Offers Aid To Apprehend Attacker

Technology, Population To Double U. S. Economy

Fantastic technological advances are in the offering as American business production expands qualitatively and quantitatively in the coming years, George Frangoulis of the Dempsey-Tegeler & Co. investment firm told Madison Rotarians yesterday.

He forecast an 85% rise in gross national product to a trillion dollars a year by 1980, by which time U. S. population will have advanced 26% to 245 million and the civilian work force will have reached 100 million.

"More leisure time will have an immense impact on many industries, and poverty may have been eliminated by 1980," Frangoulis said, "assuming there is no major war and substitutes are found for raw materials in short supply."

He said 1965 was a good and relatively easy year from the standpoint of investments, but in 1966 preservation of capital gains will be as important as selection of investments.

Harry Thebau was honored on his birthday, and the Dec. 29 meeting was changed from the Madison recreation center to the Sportsman's Club. Plans were made to attend a Rotary foreign student dinner dance in St. Louis March 5 and to assist in the 1966 district Rotary conference in Madison county April 17, 18 and 19.

Ed Moore, Granite City contractor, was granted a zoning change this week by the East St. Louis city council to construct a 45-unit apartment project at 71st street and Church lane.

air pollution, solid waste disposal and open space planning, Roos said.

Permanent headquarters of the council will be established in East St. Louis, while temporary offices will be located in a basement at Clayton. Recruitment of a staff has started and 34 applications have been received. The \$20,000 per year job as executive director.

Conceived a Year Ago

The East-West Gateway Coordinating Council originally was conceived in a tentative status more than a year ago in a move spearheaded by the Bi-State Development Agency to bring representatives from both sides of the river together into a coordinated highway planning program.

Such a comprehensive planning program was necessary if the area was to receive federal funds for construction. Since July 1, 1965, but an interim committee that had been formed in 1963 had been unsuccessful in accomplishing a cooperative organization.

The Federal Highway Act of 1962 requires not only a coordinated, area-wide plan for all current highway construction, but a continuous planning of updated data to qualify the area for federal highway grants. Through the urging of Bi-State officials, the 16-member council was tentatively formed in East St. Louis in September 1964, and an advisory committee named at that time to work out a basis for a permanent organization and a council program.

All Members are Officials

Members of the council are elected officials, or hold office by appointment. Since practically all projects that would be handled by the council would require action by such governmental agencies, any planning done by the body would have official status from the beginning. A 17th membership is to be added soon.

Mayor Fields, Mayor Cervantes and Supervisor Ross are members of the Council's eighteen board of directors. Other directors include: Presiding Judge Clem A. Burges of St. Charles county; Francis J. Foley, chairman of the Board of Supervisors of St. Clair county; Harold Landolt, chairman of the Madison county board of supervisors; Paul T. Koenig, mayor of Crestwood, Mo. and president of the St. Louis County Municipal League; and Dupe Mayor Barney Metz, president of the Southwestern Illinois Council of Mayors.

Other council members include:

Harry Briggs, president of the Southwestern Illinois Metropolitan Area Planning Commission and Nameo township supervisor; Walter Wetzel, chairman of the Board of Supervisors of Monroe county; C. E. Townsend, Record editor and publisher and chairman of the Bi-State Development Agency; Walter Steinburk, presiding judge of Jefferson county; Marvin J. Snider, chief engineer of the Missouri State Highway department; Robert Simonds, assistant director of the Missouri Division of Commerce and Industrial Development; Ralph Brown, engineer of planning for the Illinois Division of Highways; and Charles Kirchner, assistant director of the Illinois Department of Business and Economic Development.

MORE ABOUT Pollution

ized Wednesday, re-electing Lawrence Toiar as president, and learned at the same time that it apparently has been conducting its reorganization meeting in the wrong month for the past five years.

Question about the meeting date was raised by Board Atty. John Sprague of Centerville who told the board that he had gone back to the original 1913 ordinance creating the levee district and found the by-laws provide for reorganization on the first Monday of each January.

Reorganization was conducted in January meetings prior to 1960, but after that date were held in December, Sprague said. Such procedure, he pointed out, could result in legal problems.

To avoid complications, he suggested, the board could proceed with its reorganization in Wednesday's session, then confirm the action again in next month's meeting.

No changes were made in the board's official or department head personnel. The board re-named Sprague and Harry H. Hartman of Granite City as board attorneys; Thomas Staicoff of Pontoon Beach as treasurer; Charles Little of Centerville as district manager; Kraemer as chief engineer and Ben Campbell as chief clerk.

City's Operating Cost Averaging \$107,000 Per Month

Granite City's general fund disbursements during November totaled \$107,000 leaving a \$415,778 balance for the remaining five months of the 1965-66 fiscal year. Disbursements in the first seven months amounted to \$748,809. Monthly expenditures have been averaging \$107,000, while the general fund balance allows \$83,100 for the remaining five months.

Alderman Paul Rutledge, chairman of the Finance Committee, called attention of council members Monday night to the slim balances remaining for three major departments.

He noted that fire department expenditures have been averaging \$23,223 a month, but the Nov. 30 balance, the average amount available is \$18,600, per month.

Similar comparisons were made for the police department; \$35,912 a month expense average

with a \$511,327 per month average remaining, and the street department with expenses averaging \$19,749 a month and a balance to cover \$14,772 a month for the remaining five months.

Sales Tax Gives Cushion

In the past several years the council has been using city sales tax revenue for operating expenses after the general fund plus funds in various general fund accounts.

The monthly financial report for November, prepared by Comptroller John Doehler and City Treasurer E. R. Rich, listed two general fund accounts with deficits on Nov. 30—pumping station, \$1228 after disbursements; \$5171 during the seven-month period, and school crossing guards, \$6442. The school guard account shows no receipts for this fiscal year. Its disbursements are to be covered through a fund transfer.

A breakdown of the city's general fund accounts, showing disbursements and balances as of Nov. 30, balances in that order, follows:

Fire department, \$162,565 and \$102,949; water, \$10,314 and \$13,744; street department, \$138,247 and \$73,868; street lighting, \$13,253 and \$10,945; general government, \$54,539 and \$309; city hall, \$18,374 and \$2116; police department, \$181,384 and \$36,635; inspection department, \$16,047 and \$16,313; election, \$511 and \$2505; sanitation, \$97,174 and \$28,985; two general fund accounts with deficits on Nov. 30—pumping station, \$1228 after disbursements; \$5171 during the seven-month period, and school crossing guards, \$6442. The school guard account shows no receipts for this fiscal year. Its disbursements are to be covered through a fund transfer.

Special Accounts

A special breakdown for the special fund accounts follows:

Municipal Retirement, \$20,810 and \$24,257; working cash, none and \$13,368; parking meters, \$22,870 and \$96,880; public library, \$51,247 and \$104,978; police pension, \$15,813 and \$16,628 with \$40,406 invested; firemen pension, \$21,945 and \$33,601 with \$19,746 invested; unclaimed rebate, none and \$21,538; civil defense, \$4445 and \$5104; sales tax, \$29,204 and \$403,733; maintenance of sewers, \$13,089 and a deficit of \$84,272; southern extension sidewalk paving, none and \$81; special street fund, none and \$27,918; special fire fund, none and \$1101; special fire equipment fund, none and \$54,000; various city improvements, \$7368 and a deficit of \$7368; and motor fuel tax projects, \$40,195 and \$601.

Seminar for Nursing Home Operators Held

About 50 nursing home operators were present Wednesday at Alton State Hospital for a day-long seminar on activities, therapy.

The program was in the occupational therapy center under the direction of the social service department. It was sponsored by the hospital in cooperation with the Illinois Department of Public Health.

Highlighting the affair was an activities workshop conducted by occupational therapy workers. The visitors were divided into three groups for lectures and demonstrations of crafts, and then each person was given a chance to create a handicraft article.

In his speech, Dr. Abraham Simon commended the work of nursing homes in taking care of outpatients. The hospital has about 383 patients living in nursing homes and shelter care units.

Meetings of this type were started last year to acquaint nursing home and shelter care units.

Meetings of this type were started last year to acquaint nursing home operators with techniques used by the hospital in treating patients.

Other features of the program included a talk by Dr. Thomas A. McConahay, supervising therapist, tours, a discussion period and lunch in the employees' dining hall.

PTA Groups Will Aid in 'Get-Out-the-Vote' Drive

PTA presidents from schools located within the Granite City park district boundaries last night unanimously agreed to assist in a "get-out-the-vote" telephone campaign in support of the Dec. 18 park district bond issue. The leaders consented to utilize committee chairmen and other PTA workers to accomplish the task.

A majority of top PTA executives from the 14 schools within the park district met in the Tri-Mor Bowl and heard explanations on the proposed ice rink and recreational center project, presented by Barry Long, president of the park board, and Angela Gasparovic, a member of a volunteer speakers' bureau.

Last night's special session, sponsored by the Granite City Jaycees, was under the direction of James Jeffries, project chairman. He also announced that Friday and Saturday, Dec. 17 and 18, Jaycee members assisted by local Girl Scouts will man six telephones to be installed in the park office in efforts to encourage active park participants to vote. Jeffries said the special meeting was arranged by the Jaycees after the group learned that no regular PTA meetings were scheduled prior to the Dec. 18 election.

Loman told the PTA representatives the \$475,000 recreation center and ice pavilion would provide year-around facilities at Wilson Park for park district residents. He stressed that both

Elks to Consider Crippled Children Program Revision

Revision of the Elks lodge 1063 crippled children's program through adoption of a resolution will be the principal order of business at a meeting of the lodge at 8:30 p.m. Tuesday, Dec. 14, at the club.

Walter A. Reese, Granite City, founder and owner of the Reese drug stores, has been chairman of the program throughout its long history. Funds contributed voluntarily have enabled numerous Quad-City area children, afflicted by deforming ailments or accident injuries, to receive corrective surgery and therapy.

With the chairman now in semi-retirement and suggesting that the direction of the program be revamped, a new five-member supervisory committee is to be formed. Exalted Ruler James Kenney has announced.

Although sponsored by Elks Lodge 1063, the crippled children's rehabilitation activities and funds are handled separately from other charitable and fraternal programs of the lodge.

Church to Hold Family Christmas Party

The annual family Christmas party of Central Christian Church will be held Sunday from 3-5 p.m. This is a family party and all will work together in a do-it-yourself project in making decorations and tree ornaments for the tree to be erected in Fellowship Hall.

Child care will be provided, and refreshments will be served.

Grace Baptist Church Will Present Cantata

The Youth Choir of Grace Baptist Church, 3600 Edwards street, will present a cantata, "The Night The Angels Sang," Sunday at 7:30 p.m. It will be directed by Donald Dillard.

The cantata is arranged by John W. Peterson and will be narrated by Miss Emylia Stone.

City to Seek Bids for 85-Foot Aerial Ladder Fire Truck

Authorization was given Monday night by Granite City council members for bids to be sought for an 85-foot aerial ladder truck for the fire department.

The truck is to be purchased with a special fund of \$54,000 that Granite City Steel Co. provided in exchange for streets and alleys in the behind-the-mill area where basic oxygen furnaces are being constructed.

The city had called for the steel firm to buy a spooler truck, but with the change in administration and the retirement of the fire chief, the plan was changed to an 85-foot aerial truck.

Specifications for the truck have been prepared.

Transfer Is Planned

In other miscellaneous business, the council authorized preparation of an ordinance to transfer Assistant City Inspector Lawrence Druhe to the city inspector staff to comply with a requirement by the Federal Housing and Home Finance Agency.

Druhe will be assigned full-time to inspections under the city's building codes. It was explained the transfer is a technicality since a full time inspector is required if the city's work-

able program is to qualify under federal acts. The city is required to have a suitable program to get federal tax funds for the expansion of Anchorage Homes.

Changes in the city's sewer ordinances to permit the controller's office to prepare bills and collect sewer rental and sewage treatment fees is contemplated. The present ordinances call for the jobs to be handled in the city clerk's office. The controller's staff has been doing the work. City Atty. Allen was instructed to confirm legality of the change with bonding firms, since the clerk presently has the authority to file property liens in the event of delinquent payments.

Dog Law Changes Planned

Changes in the city's dog control ordinance are being planned, since it has been discovered the \$1 per day fee charged owners for dogs being kept at the animal shelter building does not cover the costs. City Atty. Allen was instructed to confer with City Inspector Jack Fricker in preparing the amendments.

No action was taken on annexations to the city. City Atty. Allen requested postponement of the ordinance to add the 117-acre tract east of Holiday Gardens, saying there were several technicalities to be studied.

Farm Bureau to Hold Animal Health Program

The Madison County Farm Bureau and the Madison Service Co. will sponsor an animal health program on Thursday evening, Dec. 16. The meeting will begin at 8 p.m. at the Farm Bureau building, Edwardsville.

The speaker will be Russell Brown, DVM practicing veterinarian with the Cooperative Division, Animal Serum Co., St. Joseph, Mo. The problems connected with animal health will be discussed, with a question and answer period following.

Pole Catches Fire

Madison firemen were called at 4:25 p.m. Monday to the rear of 1508 Third street where a utility pole had caught fire from a burning trash pile. There was no damage, firemen said.

Approval was given for an estimated \$500-\$600 expansion of a drainage line to be installed on Pontoon road to drain a low area in front of the N. M. & O. K. I. Methodist Church. The line is to be extended west about 85 feet and a second catch basin installed.

Additional State Funds Sought

Additional state funds for maintenance of Missouri avenue still will be sought by the city, although the council is expecting the state highway department to specify use of the city's motor fuel tax funds to repay the concrete street. The city was advised it would lose the present maintenance allocation if a weight limit is lower than the state has set for its routes.

The city now receives about \$1400 a year from the state for maintenance of state routes through the city.

The amount, it was noted, is inadequate for major repairs, but although the state follows a set procedure in such allocations, an increase will be sought.

A low bid of \$789 by Clifford Cozart Painting Co., 2445 Pine street, to paint lobbies on all three floors of the city hall was accepted. Another bid was \$1335 from Modern Painting Co., 1712 Ferguson avenue.

Courtesy Parking Begins on Monday

Courtesy tickets for parking meter violations in the Granite City business district will start next Monday and continue through Christmas eve.

The tickets read that through the cooperation of the Associated Retailers & Civic Association and the city of Granite City, merchants have deposited a nickel for one hour of free parking in the meter. The retailers provide a supply of nickels to the meter patrolman.

The Associated Retailers also reminded that calls to Santa Claus may be made by dialing TR 7-5711.

Bids are to be sought for installation of outside lights at the three city hall entrances.

Approval was given an allowance of \$135 for meals for the officers attending the three-week training course at the Illinois Police Training Institute at the YMCA. The officers are working regular shifts in addition to attendance the morning and afternoon classes.

Ward Redistricting

Alderman Rudolph, chairman of a special committee for redistricting the city's eight wards, said the committee is to meet with Township Supervisor Nelson Hagauer to determine changes in township precincts prior to proceeding with a city plan. He explained the purpose is to equalize population within wards and also to try to establish city voting precincts to match the township precincts.

Being studied by the council is a recommendation by David John, chairman of the Zoning Appeals board, for the board's proceedings to be recorded in the event of court developments.

Prior to the council session, the aldermen conferred with Assistant City Atty. Leo Konzen on possible out-of-court settlement of a suit pending against the city.

Bridge Traffic Off to Best Start In City's 8 Years

Now in its eighth year of operation by the city of Venice—the purchase took place Nov. 21, 1958—the McKinley Bridge is off to its fastest start in history from the standpoint of usage and revenue.

Traffic in October and November, the first two months of the 1958-59 fiscal year, has been tabulated by Bridge Manager Henry McMullen as \$31,460, compared to \$18,393 at a similar time a year ago. The yearly record for vehicular crossings of 4,938,727 was set in 1954-55.

Previous October - November tallies included 790,325 in 1953-54, 840,137 in 1952-53 and 775,948 in 1951-52.

The October 1958 figure of 430,000 was not a record, having been exceeded in October 1962, but the past month's 420,512 tops all previous Novembers. With one less day, the daily traffic average rose from 13,901 in October to 14,017 in the month just ended.

A breakdown by weeks shows 99,848 traffic Nov. 1-7, 99,439 in the second week, 96,418 in the third week, 90,162 on Nov. 22-28 and 34,659 on Nov. 29-30.

Special Service Sunday At First Presbyterian

The Third Sunday in Advent will be observed at First United Presbyterian Church as Universal Bible Sunday and the first White Gift Sunday.

The topic of the sermon by the pastor, Rev. Dr. David B. Macdonald, will be "The Invasion." A vesper service will be held at 4 p.m.

\$74,038 MFT for County

The Illinois Department of Finance reported today at Springfield that Madison county has been allotted \$74,038 as its share of the \$3,667,845 motor fuel tax paid into the state treasury last month. The St. Clair county allocation was \$78,619.

Zoology Club Seeking Stuffed Birds, Mammals

Tired of seeing your taxidermic
mounts of mammals or
birds collecting dust or taking up
space? Then call the Zoology
Club at the Southern Illinois Uni-
versity-Southwestern campus.
Club members have been work-
ing with the naturalist at the
Pere Marquette Natural History
Museum in renovating and im-
proving collections. They have
cleaned the museum and re-
placed a portion of the insect
collection which had been des-
troyed by insect pests.
On their next trip to Pere
Marquette, club members hope
to have taxidermic mounts of
mammals or birds to add to
these collections. Those wishing
to make donations may call GL

Bi-State to Halt Bus Service to New Campus

Daily bus service for students
from the Quad-Cities, Alton and
East St. Louis to the new South-
western Illinois University-Southwest-
ern campus will be discontinued
Dec. 17 at the end of the fall
quarter.
The service was inaugurated last
year at the Alton and East St.
Louis centers showed that 96%
of the students commuted to
classes by auto, either singly or
in car pools, with most of the
others traveling by motor scoot-
ers, bicycles or on foot.
This was attributed to lack of
public transportation facilities,
and it was hoped that the bus
service to the new campus would
substantially cut down auto traf-
fic, the university said, but this
did not prove to be the case.

Granite City PRESS-RECORD

Originally 10 round trips daily
left the two points of origin, be-
ginning at 6:35 a.m. and continu-
ing until 6:40 p.m. The buses
from East St. Louis were routed
through the Quad-Cities.

Two of these trips were can-
celled later, according to prior
agreement, when it became ob-
vious they were not being used.
At the same time, at the request
of students, departure times of
four other runs were changed,
the university said, but this did
not result in a significant in-
crease in the number of pas-
sengers.

High-Ranking Students May Apply Now at SIU

Southern Illinois University at
Carbondale is accepting applica-
tions for both the 1966 summer
and fall quarters from high-rank-
ing high school seniors, accord-
ing to Leslie J. Chamberlain,
campus admissions director.

He said a new "early decision"
admissions policy adopted by
SIU enables tentative acceptance
of students in the upper quarter
of their high school classes on
the basis of six semesters of
high school study. Others will be
considered after completion of
seven semesters.

In either case, however, a
complete transcript showing all
high school work and verifying
graduation must follow at a later
date.

Chamberlain said all entering
freshmen must take the ACT
test, given nationally four times
a year and usually administered
at most high schools. Dates for
the test in 1966 are Feb. 19,
April 23, June 25 and Aug. 6.

Entering freshmen also are
urged to get Social Security
numbers for permanent identifica-
tion in the electronic system
now in use at SIU, Chamberlain
said.

Graduate Fellowships Open to SIU Students

A record 24 graduate fellowships under Title IV of the National Defense Education Act have been allocated to Southern Illinois University. It was announced by Dean William Siemeone of the SIU graduate school.

Dean Siemeone, who said the purpose of these fellowships is to encourage training of students to become college teachers, explained they are awarded persons just entering the graduate program.

The fellowships, for three years of study, start with the academic year beginning in September 1966. Stipends begin at \$2000 for the first year and increase to \$2400 the third year. There also are dependency allowances.

Final Exams to Start Monday at SIU Centers

Southern Illinois University students will begin a week-long session of final examinations Monday, then begin a Christmas holiday extending through Jan. 2. School officials said most of the 24,502 students enrolled on the two major campuses will be going home for the holidays. A series of special activities, including Christmas dinner with American families, is planned for foreign students who will remain on campus.

Two GC Square Dance Groups Performing

Two exhibition groups, selected from the "Y" Twirlers and the Checkerboard Squares, were featured at the Olney Mid-winter Square Dance Festival this week. The Twirlers, a new group in the exhibition field, is fast gaining recognition as the youngest exhibition group in the Midwest, having the nation's youngest caller, Shelly Boyd, as teacher and caller.

The "Y" Twirlers in the last three months have accepted invitations and performed at one national and three regional festivals.

The Checkerboard Squares, rated as one of the top three teen exhibition groups in the country, share their caller and class time with the Twirlers.

Exhibition teams from both groups will join with a Scott Air Force Base group to entertain orphans from Centralia Saturday at the air base.

Kitchen Kapers Club Sets Tea for Friday

Mrs. Agnes Butler, advisor for the YMCA Kitchen Kapers, a grade school homemaker club, will host a tea for members and other grade school girls of the area at 4:30 p.m. Friday at the "Y." Mothers of the girls also have been invited.

The program has been geared to teach grade school girls the basic homemaking skills. During the past few months it has centered on sewing instructions given by Mrs. Butler. After the tea the girls will display items they have made in connection with the YMCA Senior Citizens bazaar to be held the same day. A special invitation was extended to past members and their mothers.

The club is accepting new members this week, and grade school girls interested may obtain additional information by phoning the YMCA youth department.

Professor at SIU-SW Is Math Book Author

A new mathematics textbook, "Deduction," by Southern Illinois University-Southwestern Campus Prof. William Bennewitz has just been published by Edwards Bros., Inc.

A preliminary edition for use at SIU-SW campus, the book was written "to lead the reader to a clear understanding of the concept of deduction," the author said. It is being used in the University's General Studies Program and in an area high

school. Bennewitz expects to place it in several other high schools in order "to test it out thoroughly for ease of teaching." Although the applications in the text are primarily to mathematics, Bennewitz says, "the principles which are introduced are applicable to the rational organization of any system of ideas, whether it be an elementary problem in physics, an expository theme, or a general theory of quantum mechanics."

The book is the result of several years of experience which the author received teaching de-

J. A. Firms Nominating Candidates for Queen

Junior Achievement companies in the Granite City center are nominating candidates for Junior Achievement queen at company meetings this week.

The Mississippi Valley regional queen will be crowned Feb. 4.

At the annual J. A. coronation ball to be held in the Chase-Park Plaza hotel, St. Louis, the Granite City center hosted the Junior Achievement Association Sunday afternoon and plans were made for a short Christmas skit to be presented for underprivileged children in the metropolitan area. Gifts and candy will be distributed.

Visiting the local center last week were Louis DeWitt of Owens Illinois Glass Co., Alton, and Arnold Johnson of Olin Mathieson, East Alton. They are judges and will make periodic visits to the center to check on the progress of the various companies.

AMSCO, an achiever firm sponsored by American Steel Industries, continues to lead the Mississippi Valley region in sales, it was reported. The company produces and sells fudge.

Doris Atwood, 2510 West 23rd street, reported Monday that someone threw a concrete block through the front door glass and tore out a telephone line outside of her home.

The youngster, who has lived with an opening in the heart since birth, will undergo open heart surgery in March. Until recently, medical experts believed this technique would alleviate Susan's particular form of heart ailment.

Girl Scouts 'Festival of Giving' to be Held Sunday

The River Bluffs Girl Scout Council will hold its annual school gymnasium. Leaders participating in the coordination of the program, purchasing of baskets and caroling are Mrs. Arlene Brinkmeyer, Mrs. Wilma Hancock, and Mrs. Virginia Marlette.

The hundreds of girls have been busy the past few weeks in making Christmas tree ornaments and filling baskets for the needy. The ornaments and baskets will be presented by the troops during the festival and will be equally distributed to the Protestant Welfare Association, Catholic Charities, the Salvation Army and the Red Cross. The festival of giving will be held at the school gymnasium, 1211 N. 1st street, from 1:30 to 3:30 p.m.

Blood Donors Still Needed for Girl, 5

Additional blood donors are still being sought for five-year-old Susan Lynn Tindall, daughter of Mr. and Mrs. Sidney Tindall, 2412 Logan street, who will undergo open heart surgery at Children's Hospital, St. Louis, early next spring.

Those wishing to contribute blood may do so between 8 a.m. and 2 p.m., Friday, Dec. 17, when a Bi-State Red Cross bloodmobile unit will be located at the Granite City Army Depot for the special six-hour project. Further information may be obtained by calling Mrs. Tindall at TR 6-6697.

According to Susan's mother, a few phone calls have been received by the family from local persons willing to donate blood. All blood types will be accepted at the bloodmobile. Mrs. Tindall said, with donations used to replace the Type O Negative blood needed by her daughter. Several Red Cross blood banks across the country will provide this specific type required, she explained.

The youngster, who has lived with an opening in the heart since birth, will undergo open heart surgery in March. Until recently, medical experts believed this technique would alleviate Susan's particular form of heart ailment.

The number of births increased to 98 the Quad-Cities' total during the 11 months of this year, while November deaths increased that total to 381 for the year. RR Crossing Repairs Requested by City

Another appeal to the Illinois Commerce Commission to require railroads to repair street crossings in Granite City will be made by the council.

Action was taken Monday night instructing City Atty. Allen to write the railroads and the ICC calling for immediate repairs.

If necessary, the ICC will be asked to send a staff member here to inspect the condition of the crossings.

GC Will Enforce RR Crossing Limit

Strict enforcement of the 10-minute limit for blocking a railroad crossing, set by state law, will be followed in Granite City. It was announced to the council Monday by Mayor Partney.

The mayor pointed to last Friday's lengthy tie up of nearly every crossroad crossing in town, and said he had ordered police to arrest the violators.

"We know there have been other tie ups, but not as long as last Friday. In some instances the crossings have been blocked 20 to 35 minutes. We plan to enforce the 10-minute limit," Partney added.

City Refers Problems To Traffic Commission

Two traffic problems brought out by Granite City aldermen were referred to the citizens' Traffic Study Commission and Traffic Engineer George Crawford during Monday night's city council session.

Alderman Whitmer asked that the commissioners study requests from delivery firms for loading zones in the downtown area; and Fourth Ward Alderman Green asked that the change in controls at West 24th street and Illinois avenue be reviewed.

Seventh Ward Alderman Sternberg told council members he had a 10% return on 47 traffic questionnaires distributed in his ward and that of the 47 replies, 38 favored changes in the one-way system for the betterment of vehicular movement, while 14 were opposed.

Two Radar Arrests

Talmage E. Towery, 2329 Pershing avenue, and James E. Bradford, Collinsville, were arrested on speeding charges Monday as traffic division police operated a radar unit on East 23rd street. They were summoned for hearings by Dec. 22.

Phone Work Crew Is Too Noisy, Residents Say

City officials are scheduling a second meeting with local representatives of Southwestern Bell Telephone Co. to solve problems in the 2400 block of Edison avenue where residents say they are being disturbed by noise from round-the-clock work crews.

The phone company has an underground junction point in the 2400 block, and a petition signed by 32 residents in the vicinity asked the council Monday night to abate the nuisance which they say disturbs their sleep and the tranquility of the residential neighborhood.

Mayor Partney and several aldermen met with residents of the area and telephone company officials, and it was recommended the company secure an electric compressor instead of a gasoline powered machine to reduce noise. In some instances, aldermen noted the work crews tap private lines to make calls.

Services Conducted For Wm. Dortch, 77

Funeral services were held yesterday afternoon for William B. Dortch, 77, of 1822 State street, a 40-year resident of local area, who died at 10:50 a.m. Monday, at St. Elizabeth Hospital. He had been ailing for six weeks and in hospital for 16 days.

Born in Stewart county, Tenn., Dortch was a retired metal form helper at General Steel Industries, Inc., where he was a long-time employee. He was a member of United Steelworkers of America, Local 1022. His wife, Mrs. Mamie Dortch, died in 1963.

Survivors include three sons, Edward Dortch, Granite City, Nylie and James M. Dortch, both of Madison; two daughters, Mrs. Margaret Verbyrick, Granite City and Mrs. Faye Roberts, who resides in North Carolina; three brothers, Carl and Clate Dortch of Stewart county, and Fred Dortch, Nashville, Tenn.; two grandchildren and five great-grandchildren.

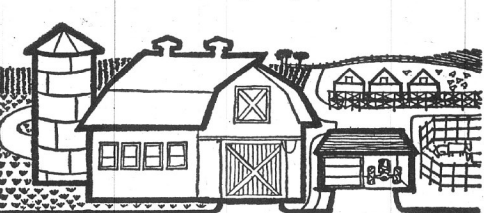

An obituary notice appears elsewhere in this issue.

Grand Jury to Get Case

Floyd Wallace, 20, of 2037 Sixth street, Madison, was bound over to the Madison county grand jury Monday in magistrate's court on an auto theft charge. He was arrested Nov. 26 in an auto reported stolen from Harold Vick, 2201 Delmar avenue.

More Goal-Topping Flareups Over Street Dept. Hirings, Crossing Guards Disrupt GC Council Session

Sections in UF Drive Announced

Additional sections of the 1966 United Fund campaign divisions topped their quotas and the Granite City-Mitchell division went over its goal, it was announced this week by John R. Hundley, chairman of the successful campaign.

Pledges to the \$348,500 campaign now total \$409,721 or 100.5%. Last year with a \$335,000 goal, \$337,737 was pledged. William Hoescher heads the Granite City-Mitchell division which reached 100.8% of its ideal for teenage civilities, conquests with contributions totaling \$17,553.

In the division, the public offices section with David W. Morgan as chairman hit 140% of its quota with \$284 pledged. The section was aided with donations from the staff and faculty at Southern Illinois University-Southwestern Campus.

Other over-the-top sections are the labor groups section headed by Edwin F. Reiske at 113% with \$565 pledged and the cleaners, laundriers, radio and television section headed by Homer Johnson with a 102.6% rating and pledges amounting to \$411.

The labor groups section is in the Industrial Employees Division, while the cleaners section is in the Commercial Division.

An attempt to take street department hirings out of the hands of the city council's Personnel committee resulted in a long and heated debate Monday night, including a fiery exchange between Mayor Partney and Alderman Bartosiak.

Action on the proposed amendment ordinance finally was deferred for two weeks.

But even the deferral was debated in a sharp but brief exchange.

Bartosiak questioned the method in which the motion for deferral was presented by Alderman Fry.

"He said he'd like to see it deferred and didn't make a legal motion for deferral. I question the legality of the motion and would like an opinion from the city attorney," Bartosiak said.

Cutting off the alderman, Mayor Partney flashed back, "I'm fed up with the continuing questioning by you and this guy Nomm. There's no debate after deferral."

Buildup to Exchange
The buildup of the debate came as the mayor began firing questions after the amendment was presented to the council by Bartosiak. Nomm, who is chairman of the Ordinance committee, had relinquished the floor to Bartosiak.

The mayor quickly asked if the city attorney had prepared the amendment ordinance. Bartosiak answered that the city attorney had not, but that the amendment had been written by a local lawyer. He then made a motion for the amendment to be placed on first reading. His motion was seconded by Nomm.

Mayor Partney then asked why the ordinance had been presented by another alderman when all three members of the Ordinance committee — Nomm, Thompson and Fry were present.

The question went dangling. Last month the mayor vetoed an attempt by the council to hire two men as replacements in the street department, saying didn't see this ordinance before they were not needed during the winter months.

His veto was followed by the council instructing the city attorney to prepare a resolution establishing the size of the department at 25 men to permit the hiring of two replacements.

Role of Personnel Committee
The mayor at that time had informed the council the hirings would have to go through the Personnel committee, and that he would do the hiring based on recommendations by the committee and with council confirmation.

Nomm complained Monday that if the Personnel committee

is permitted to function properly, it could keep city workers out of politics.

Mayor Partney interrupted to ask if the Ordinance committee was recommending approval of the amendment.

"No," Fry replied, adding, "I'd like to see it referred back to committee."

Nomm then said there was attempt being made to gain approval during the meeting. "All that is being sought is first reading. That will give two weeks for the council and city attorney to study it."

"We have an agreement to put such an ordinance on first reading before going ahead with adoption," Nomm added.

"Who's We?" Mayor Asks
"Who's we?" the mayor asked. Nomm said it was the council, and that since the ordinance couldn't agree, he would give a minority report. "This is not trying to shove anything down anyone's throat, it can continue on for two more meetings."

Alderman Boyd suggested the ordinance establishing the Personnel committee might be repealed.

Partney replied he felt it was necessary for the committee to function and to interview city job applicants.

The deferral request by Fry

was then that Bartosiak called for the attorney's opinion, and there was the sharp retort by the mayor.

Later in the meeting, Bartosiak asked City Attorney Allen directly, and Allen answered, "As far as I'm concerned, it's deferred."

2-Aldermen Flareup
In another flareup, Bartosiak and Alderman Rutledge, chairman of the Finance committee, got into it as Bartosiak said the committee was telling a lie when it pointed to a deficit in the school crossing guard salary fund.

"Watch what you're saying, or you're liable to be picking your self up off the floor," Rutledge said to Bartosiak. "I'm ready," was Bartosiak's reply.

This exchange came at the start of the meeting when a letter was read from City Attorney Allen giving his opinion on the council's methods of transferring funds. Copies are to be distributed to the aldermen.

Allen said all city expenditures must be covered in the budget and that transfers from one fund to another can be carried out only after the first six months of the fiscal year has passed.

cause of that carries a deficit. He contended the "red figure" is deceiving and represents a lie to the public because the council has not yet provided the receipts for the fund. He called upon Comptroller Doobler for an explanation.

It was pointed out the only income for the crossing guard fund would be from transfers from other funds since there is no special tax levy.

The legal opinion on fund transfers was sought in connection with the council's recent approval of the hiring of an additional school crossing guard at Benton and Oregon streets.

Alderman Robertson, who had called for the added guard, told council members Monday night that \$12,000 had been budgeted for salaries and that funds should be available.

Bartosiak added that the

Endurance Race Tops Slot Car Racing Card

A two-hour endurance race will highlight the racing program at the Tri-City Miniature Speedway, 2500 Nameoki road, for slot cars Sunday at 2 p.m.

The marathon event will cap a day's program of 10-minute heat races in which the top two drivers and their cars will compete with nearly 60 other contestants for the Midwest Slot Car Association's Top Driver Award of 1965.

The "enduro" race for full-bodied sports cars will have a new mandatory two-pitstop rule this year. Each driver must make at least two stops for a combined time of 30 seconds during the course of the race.

"The big track will be used and, after a half-hour of racing, we will cut off the power and the drivers will switch lanes. This will give them a chance to race on each lane of the track during the endurance race," said Jim Converse, one of the association's officials.

Dick Hardesty, Wood River, currently leading the area's drivers with the most points earned over the season, seems to be the

Madison's Lusk Tops Area Cage Scorers

Paul Lusk of Madison has taken over the area basketball scoring lead early in the season.

Lusk, the tallest member of the Madison squad at 6'2", is averaging 28 points per contest, on 56 points in two games. Teammate Dale Turner is right behind Lusk, with 46 points in four games or a 23-point average. The one-two scoring punch of Lusk and Turner has accounted for 102 of Madison's 129 points in the two game tilts.

Craig Manwaring, 6'5" junior from Highland, has the third spot. He has netted 66 points in three contests for a 22-point-per-game mark. Jim Campbell, 6'6" center for the Bulldogs of Highland, is fourth with a 19.5 mark and Tom Parker, sparkling of the Collinsville Kahoks, is fifth with a 19 points-a-game average.

Rich Essington of Venice had a 23.6 average before playing in Venice's first round game against Aviston in the MCM conference tournament at Bunker Hill Monday night. The Red Devils jumped to a fantastic early lead and Essington sat out three-fourths of the game, netting only eight points.

He is seventh in scoring with an 18.9 mark, scoring 79 points in four games. Rounding out the top ten are Alton's Don Campbell (18.5), Don Harvey of Roxana (18.3) and Jerry Harrison of Wood River (18.2).

Chamber Board Unanimously for Ice Rink, Center

The board of directors of the Tri-Cities Chamber of Commerce voted unanimously Tuesday night to endorse passage of the Dec. 18 Granite City park district bond election on construction of an ice skating rink and year-round recreation center.

Summing up the feelings of board members, President Carl E. Mathias said, "We're very enthusiastic about the rink and recreation center and what it can mean to our community. It's a wonderful project and is worthy of active public support."

Mathias stressed the importance of Granite Cityans who favor the proposal taking the trouble to vote on Saturday, Dec. 18. "I urge that we all vote, take our wives to vote and ask our friends and neighbors to vote."

The plan for an 800-capacity professional hockey-size ice rink and a 3000-person covered pavilion in Wilson Park was outlined to the board by William F. Winter on behalf of the Citizens Committee for Park Improvements. He said it is designed for use by all age groups and during all seasons, and would be ideal for teenage activities, concerts, sports exhibitions, square dances, flower shows, theatrical presentations, conventions, reunions and meetings of all kinds. Granite City Mayor Donald Parney told the Chamber board that a substantial get-the-vote-out drive is needed to assure success in the rink-recreation center election.

Court Orders Drive To Close Out Estates

Chief Circuit Judge Harold R. Clark has ordered a drive to close some of the 2500 estates pending in the probate division of circuit court which have been pending for an extended length of time.

The court is sending letters to attorneys, executors and administrators reminding them that final reports should be filed and estates closed without delay in estates which have been on file more than 12 months.

However, Judge Clark noted that if tax proceedings have not been completed, the estate cannot be closed within one year. In some cases involving large estates, they cannot be closed where payment of inheritance taxes await an audit by state authorities, he added.

From 500 to 600 estates are opened annually in the probate division, and if others are not closed, a backlog is created. If the work remained up to date, from 50 to 75 estates would be completed each month, Judge Clark said.

PRESENTING AUDIO-AID device to Rev. Godfrey Piontkowski, chaplain, for use at St. Elizabeth Hospital, is Peyton E. House, who has given \$100 to the hospital for the purchase of the device.

Hospital Volunteer Donates Audio-Aid

Peyton E. House, a volunteer worker at St. Elizabeth Hospital who has donated 2400 hours over the past 1 1/2 years, has given a \$100 donation to the hospital to buy an audio-aid device. The hearing device is two telephone receivers, battery-powered, that increases the voice so that a mere whisper is audible.

The device, to be used mainly by Rev. Godfrey Piontkowski for hearing confessions, will be available upon request to Rev. Piontkowski, the hospital chaplain, for use by other priests and ministers who may see a need for such equipment while visiting patients.

estates, they cannot be closed where payment of inheritance taxes await an audit by state authorities, he added.

From 500 to 600 estates are opened annually in the probate division, and if others are not closed, a backlog is created. If the work remained up to date, from 50 to 75 estates would be completed each month, Judge Clark said.

Rotary Club Endorses Ice Rink, \$475,000 Bond Issue

Members of the Granite City Rotary Club voted unanimous endorsement Tuesday of the proposed new ice skating rink and recreation center to be financed by a \$475,000 bond issue. The Park District has called a special bond issue election for Dec. 18.

Approval of the plan was expressed after club member Eugene Coe, executive of the Cahokia Mounds Boy Scout Council, told the Rotarians in their regular noon luncheon meeting at the YMCA that the structure would provide a municipal building that Granite City has needed for a long time at a cost of less than one cent a day to the average taxpayer.

"Granite City long has had a need for just such a building as

that which the park district now plans to build," Coe said, adding, "It's not a building to be used just as a skating rink, but one that will provide facilities for other sports, civic activities and community affairs."

He pointed out that for the benefit that will be derived from such a structure, the project cannot be considered expensive, pointing out that the cost for retirement of bonds will amount to less than 1% of an individual's present tax bill. This, he pointed out, is less than one cent on the dollar. He said such a structure will add considerably to park district property.

Hear Dr. Voight After acting on the bond issue

plan, Rotarians were addressed by Dr. Edwin E. Voight, president of McKendree College, who told the club members that the small college still has a necessary place in the field of education. Dr. Voight pointed out that there is no way of knowing how many young people will attend college in the future, or what facilities will be available.

As a result, he said, there is a need for both private and state colleges, just as there is a need for a two-party political system.

"One protects the other," Dr. Voight said, pointing out that "the small college can teach values and develop responsibility perhaps better than can the

larger college." The smaller college, as long as it is a part of the educational pattern, is a safeguard against complete state control of the schools, he said.

Many of the smaller colleges also offer more specialized training in some subjects, he added, pointing to McKendree College as an example. McKendree College, he said, has turned out the best mathematicians in the country.

Special equipment has been installed on the Waldron to facilitate handling of the capsule in a specially-designed Gemini-Apollo davit retrieval crane. Crewmembers also have undergone intensive training in spacecraft recovery techniques since the ship was chosen as an alternate recovery vessel because of her search and rescue capabilities.

Tree Roots Cause Break in Sanitary Sewer in Alley

Street department employees began repairs this week on a broken section of the Nameoki sanitary sewer system apparently caused by a large Chinese elm tree near the 10-inch line.

Street Supt. Warfield again appealed to Granite City residents to plant trees along or close to sewer easements because of the difficulties encountered.

"We do know if the line was broken and that's how the tree roots got in it, or if the roots themselves broke the line. Anyway, it is 10-inch line is 12 feet underground and it was completely clogged with a mass of roots."

"Our crew pulled out a five-foot piece of root mass, and it was packed so tightly in the sewer we had to cut it with a backhoe. I don't know how the sewer functioned," the superintendent added.

The break in the 2700 block at between Warren and Marshall avenues brought no complaints to the city, but was discovered when a sewer connection was being installed to a home in the 2700 block of Warren avenue by a private contractor.

The contractor reported the break and the clogged condition to the city.

Immunization Clinic In 21st Month Here

An average of 175 patients receive preventative shots in the free immunization clinic conducted on the first Saturday of each month at St. Elizabeth Hospital, it was reported this week by Sister Mary Thomas, hospital administrator. Last Saturday was the 21st month the clinic has been operating.

During the two-hour clinic, local physicians and nurses are assisted by volunteer help, including members of the Granite City Jaycees, the Hospital Pink Ladies and Candy Strippers. Serum is provided by the Illinois Department of Public Health.

Usually each child receives a balloon or candy donated by the Jaycees, Sister Mary Thomas said. However, she added, last Saturday Christmas candy canes were distributed to the youngsters through the generosity of A. O. Smith Corp.

Farm Hiring, Hunting, Fishing to be Studied

The Census Bureau's annual survey of hired farm work and the first phase of a survey on hunting and fishing will be taken during December in this area as part of the bureau's monthly current population survey, according to Director Theodore F. Olson of the Census regional office in Chicago.

The farm work survey, to determine the number of persons in the nation doing full and part-time farm work for hire, is being done for the U. S. Department of Agriculture. The hunting and fishing survey, to get national statistics on each activity, is for the U. S. Department of the Interior.

Both surveys will supplement regular monthly inquiries on employment asked by the bureau to furnish information for the U. S. Department of Labor's Bureau of Labor Statistics.

Questions on hunting and fishing will be asked about all survey family members in the area who are 9 years of age and over. The questions seek to determine how many persons hunted or fished during 1965, their ages, how often they engaged in these activities, and approximately how much they spent on them.

The information will be collected during the work week starting December 13 from scientifically selected sample households in this area as well as other sample areas throughout the U. S.

Census Bureau interviewers will visit families in this area during December.

Nameoki Township River Bluffs GS Council Adds New Staff Members Awaits Forms to Seek Sewer Grant

Application forms to file for a \$50,000 federal tax grant for State Park Place sewers should be ready by the second week of January, Supervisor Harry Briggs reported at a meeting of the Nameoki township board Monday night.

He said the township would be ready to file for the federal tax funds. Plans are being made for construction of a sewer system and sewage treatment plant at an estimated cost of \$282,000. The board passed a \$2000 tax anticipation warrant for the Illinois Municipal Retirement Fund at four per cent annual interest.

Briggs explained the township is in its first year under IMRF, and a sufficient amount of money to cover the cost was not included in the township budget.

Storm Water Tap-On
Auditor William Schreiber reported that he contacted Madison Mayor Stephen Maerz for permission to tap onto the city storm water sewers at Sken and McHale streets. He said he expects approval by the Madison council after a written request is submitted.

Charles Hanks, road commissioner, informed Mayor Thomas Staicoff of Pontoon Beach that the village owes the township \$194 for roadwork conducted in the village. Staicoff said payment of the bill has been approved. There was an apparent mixup in equipment stored at each. She also will help with campsite acquisition and development.

A series of staff assignments for newly employed personnel in the River Bluffs Girl Scout Council was made Tuesday by Miss Veta G. Funderburk, executive director.

New staff members, Miss Funderburk said, include Miss Marilyn Munsterman, Mrs. Thomas B.A. degree in speech from Marquette University in Milwaukee, Wisc., and joins the Girl Scout Council directly from service as a Peace Corps volunteer in Bogota, Columbia. Her main assignment will be in District Five.

Mrs. Dourson is being appointed to the newly created position of general camp manager. The board of directors of the Girl Scout Council has established the position to provide for constant supervision of repair and maintenance of the six council-owned campsites and the camping equipment stored at each. She also will help with campsite acquisition and development.

County's New Record Budget Out of Balance by \$68,000

Madison county's proposed record budget of \$3,367,326 will be out of balance by about \$68,000, it was disclosed at an unveiling Monday at the courthouse in Edwardsville.

But Leslie Prehn, finance committee chairman, said the county can still come out in the black during 1966 as it currently will do during the current fiscal year ending Dec. 31.

Last year the general fund deficit was estimated at \$73,000, but excess fees from the county fee offices and from an increased number of building permits have provided more funds than at first expected.

Prehn also said the county has a "cushion" of accumulated surpluses built up over past years. The new budget will be for adoption at the Dec. 22 meeting of the county board.

County Auditor John Krnak reported that the accumulated surplus should show a balance of about \$300,000 by the end of 1965.

Two-Cent Tax Hike

A two-cent increase in the general fund tax levy for 1966, authorized by the general assembly, will be needed to cover the cost of the primary and general elections next year, about \$142,000 that was not in last year's budget, Prehn said.

The new budget is \$33,986 higher than that for 1965. It includes \$17,924 for operating expenses in the general revenue fund and \$1,637,402 in appropriations from special tax funds. The 1965 budget included \$1,466,419 for general fund expenses and \$1,566,909 for special purposes.

In addition to the election expenses, the new budget provides for \$20 monthly pay increase for county employees to cost about \$55,000.

The general fund section of the budget also includes \$65,000 for per diem and mileage expenses for the board of supervisors, a \$13,000 increase over 1965. The previous \$52,000 appropriation already has been spent and claims are yet to be allowed for November and December.

Zoning Request Omitted
Omission of a request for \$12,500 for the zoning department to update county planning and the 2½-year-old zoning ordinance was questioned by Harry Briggs, Nameoki township supervisor and new president of the Southwestern Illinois Metropolitan Area Plan Commission.

Theodore Mikesell, SWIMAPC executive director, said that without a comprehensive plan, township and county governments may be unable to obtain federal grants for new water and sewer systems or for open space parks.

Briggs currently is attempting to obtain a federal grant for the State Park Place sewers and a sewage treatment plant.

Prehn said the recommendation was omitted because the budget was out of balance and the committee believed the item should first be discussed on the floor of the county board.

Mikesell said if some county funds are made available, the federal government will help finance updating of zoning and comprehensive planning.

A comparison of departmental figures in the budget shows: judiciary, \$28,190, down \$13,820; county penal expense, \$115,624, up \$1840; Madison county nursing home, \$153,471, up \$11,770; welfare work other than nursing home, \$233,350, down \$1200.

There must be reasons. Sure!

Name ten. OK:

1. All these comforts are available: steering wheels that tilt or flip and telescope; AM/FM Multiplex Stereo radio, first ever offered in cars; and Strato-belt seats (to give you just a sampling).
2. Comfortor automatic heating and cooling you can order—just dial the temperature and turn it on; Comfortor automatically keeps you comfortable no matter what the weather outside.
3. More engine choices—the widest horsepower range available: the 425-hp Turbo-Jet V8 in Chevrolet and Corvette to a 70-hp Four in Chevy II.
4. Body by Fisher—Craftsmanship by the world's best known coachbuilders with everything from luxurious interiors to the long luster Magic-Mirror acrylic lacquer finish.
5. Self-cleaning rocker panels flush out salt and other corrosives with rainwater, dry themselves with outside air—another way Chevrolet takes extra care so you needn't bother.
6. A hushed and gentled ride with body mounts designed to isolate vibration better and shock absorbers matched to body style—coupe, sedan, convertible, wagon.
7. America's only rear-engined car, Corvair, with more weight over the driving wheels where you need it and less on the steering wheels where you don't.
8. America's only true sports car, Corvette, with fully independent suspension, four-wheel disc brakes and engines you can order up to 427 cubic inches.
9. Higher resale value—Chevrolets traditionally are worth more at trade-in time because more people want Chevrolets . . . new or used.
10. All these safety features standard now: seat belts, front and rear padded dash and sun visors outside mirror (use it always before passing); shatter-resistant inside mirror; 2-speed electric windshield wipers for better visibility in a downpour; windshield washers; lock-up lights.

Tuberculosis is not inherited. Like flu and pneumonia, it is an infectious respiratory disease. Family members can catch it from one another. Christmas Seals fight TB and other respiratory diseases.

Assemble three mayors in the same room and what will they talk about?

Ice skating and recreation, a traffic grade separation and a new medical school.

At least this was what the three talked about when they attended the December board meeting of the Tri-Cities Chamber of Commerce Tuesday night at the Rease Bowl. They had participated earlier in the evening in a dinner meeting at St. Elizabeth Hospital.

All are Chamber directors

automatically as chief executives of Granite City, Madison and Venice, but some of them have been unable to attend regularly due to other meetings.

Chamber President Carl E. Mathias welcomed the three and asked each to address the board.

Madison Mayor Stephen Maerz called attention to the signing of an agreement that evening between St. Elizabeth Hospital and Southern Illinois University regarding a phase of the nursing education program.

"I hope this is just a beginning and that in the near future a medical school can be attached to Southern Illinois University."

Mayor Maerz voiced appreciation of the Chamber's endorsement of the Madison school bond election, which was approved by voters last weekend. Mathias noted that the Chamber made a detailed study of the school construction program and became convinced that it was needed.

Dr. John E. Lee, mayor of Venice, said the state had chosen the smallest of the three cities to prosecute for air pollution. He added that with the burning of refuse halted, the city is now complying with the state order.

"Through the graciousness of Granite City, we are dumping in the Granite City dump for a small fee," Mayor Lee related.

"We're waiting on the Broadway underpass to learn whether the state will include it in its next highway budget. They are under the same Illinois Commerce Commission order as the city and the railroads to construct the underpass within two years."

Mayor Lee recalled that the state is to pay half of the project, with the city bearing another \$420,000 of the cost and affected railroads paying \$180,000.

Recreation Center Needed

Mayor Donald Partney of Granite City said he believes the proposed Wilson Park ice rink and recreation center can be a valuable asset to the community.

"We need to urge people to vote, because there will be opposition. If we sit at home, we could lose the recreation center."

"Each and every one of us should get out and put as much effort into this as we can. It is up to us to work for it and ask people to go to the polls."

Citing the previous night's city council endorsement of the rink and recreation center, Mayor Partney said he was pleased by the action but that "it will take more than this."

Three Christmas home lighting contests will be held in the Quad-City area this year, sponsored by the Granite City Jaycees, the Madison Rotary Club and the Eagle Park Acres Improvement Association.

Entry in the Jaycee contest, which covers Granite City, Pontoon Beach and Stalling, requires completion of an entry blank, appearing elsewhere in today's issue. Deadline for entries is midnight, Dec. 19.

No pre-registration is necessary to enter the Madison or Eagle Park Acres contests, as judges will view all decorated homes in the two separate contests on Tuesday, Dec. 21, in Madison, and during the week beginning Dec. 20 in the Eagle Park area.

Five Awards

Five awards totaling \$100 will be given for the best displays in the Madison Rotary Club's professional contest, a \$20 merchandise gift certificate, first place; and \$10 gift certificate for second place in the Eagle Park contest.

Donald Cooper, Jaycee project chairman, said today that entry blanks also may be obtained up to us to work for it and ask people to go to the polls."

Citing the previous night's city council endorsement of the rink and recreation center, Mayor Partney said he was pleased by the action but that "it will take more than this."

Cooper reported that letters have been sent this week to Mayor Donald Partney, city officials and Thomas Stalcoff, Pontoon Beach village president, seeking their support for the annual project. The chairman added that Eugene Alais, Granite City high school art director, has agreed to head the panel of judges who will inspect decorated homes entered in the contest Monday and Tuesday evening, Dec. 20 and 21.

Judging by Words

Unlike previous years, Granite City entries will be judged according to the voting card in which the participant resides, Cooper said. He explained that this year, residents of the Pontoon Beach and Stalling areas will be judged in a separate division.

Jaycees will continue to award prizes in two separate categories — religious and non-religious. Eighteen winners—nine in each category—will be selected, with each to receive a \$10 cash prize.

From the 18 named, two grand prize winners will be chosen for trophies in addition to the cash award, the chairman said. By using the new system, Cooper added, participants in this year's home lighting contest will be competing against only those entered from their own neighborhood. It is hoped that an increase in the number of entries will result.

Check Exhaust Devices As Pollutant Controls

Control of pollutants from exhausts of motor cars was discussed at a recent meeting of the Illinois Air Pollution Control Board with three members of the Illinois Legislative Motor Vehicle Commission in Chicago.

Clarence W. Klassen, technical secretary of the board, reported that the types of control devices were reviewed and discussed. State Senators Fred J. Hart of Streator, Samuel L. Martin of Watseka, and Paul A. Ziegler of Carmi, represented the Legislative Commission.

The board received an opinion from the attorney general's office that temporary exemption to the Air Pollution Law could not be granted any city or county. The law provides that if any city or county has adequate ordinances that are enforced and are equal to the state laws, the city or county can be exempt from the jurisdiction of the Air Pollution board.

The air pollution staff is fostering local controls in the Granite City area, under which industries will abate pollution nuisances as for both the basic hospital protection and the voluntary plan, covering primary doctors' fees.

St. John Christmas Program Set Sunday

The annual church school Christmas program of St. John United Church of Christ will be given Sunday in the sanctuary, beginning at 6:45 p.m.

Selections of Christmas carols will be presented by the 25-voice choir under the direction of Mrs. Isabel Schmidt. Members of the young people's class will conduct the Liturgical part of the service.

The annual White Gift Christmas offering will be taken. It will be sent to the Back Bay Mission in Biloxi, Miss., which seeks to minister to the economically depressed Shrimp fishermen.

During the program each department of the Sunday school will present recitations, carols, poems or choral readings on the theme "Christ—God's Gift to Mankind."

On the same day Universal Bible Sunday will be observed, together with other major branches of Christendom, at both the 9 a.m. and 10:20 a.m. worship services.

As an expression of the importance of the Bible in the life of young people, the church school will continue its annual custom of presenting a new, modern translation of the New Testament to the entire seventh grade department at 10:20 a.m. service. Members of the Brotherhood will erect and trim the annual Christmas tree for the sanctuary and the Altar Guild will decorate the chancel, windows and doors in festive Christmas trimmings. The pastor, Rev. Paul Surbey is extending an invitation to the public to attend.

'Trim the Tree' Party Planned at Church

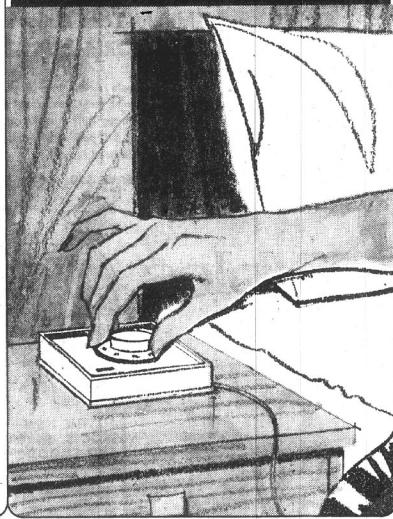

A "trim the tree" party will be held in Wesley Hall of Niederrhein Lutheran Methodist Church from 2 until 5 o'clock on Sunday afternoon. This program is sponsored by the Commission on Education and is planned for the church families. As a family affair, all children must be accompanied by a parent.

A vesper service of worship and the trimming of the tree in the sanctuary will be held for everyone at 5 o'clock the same day. Donald Roulund, church lay leader, will lead the service, assisted by others.

What do you do when nights get colder?

This

...or this?

No wonder an electric blanket is so warmly appreciated

Piling on extra blankets may make you warmer, but the extra weight probably will ruin a good night's sleep. Better solution—an electric blanket.

Nights getting colder? Just move the control knob to the exact temperature you prefer for sleeping comfort.

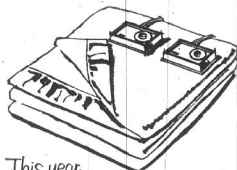

And because an electric blanket is light as a feather, you sleep under gentle warmth without weight.

For double beds, an electric blanket with dual controls lets each sleeper choose his or her sleeping temperature.

No more blanket tug-o-wars on chilly nights.

Perfect gift? An electric blanket certainly is.

Bi-State Passenger Income Off \$50,000

A drop of about 2.5 percent in passenger volume reduced anticipated income of the Bi-State Transit System by approximately \$50,000 during the month of October, leaving a balance of \$85,000 for the month, according to a report by the agency. The balance is \$60,737 less than the amount budgeted.

Total revenue for the month amounted to \$1,975,609, while expenditures for operating purposes totaled \$1,925,861, leaving a net operating revenue of \$49,748 before depreciation. Application of \$130,518 depreciation against this balance left \$218,110, from which \$133,077 was deducted for other fund requirements. This left the \$85,033 balance.

The October revenue of \$1,975,609 increased to \$21,938,949 total revenue for a 12-month period of Nov. 1, 1964, to Oct. 30, 1965. Expenditures for the same period ran \$19,388,210. Depreciation and fund requirements, however, has created a \$335,106 deficit for the one-year period.

October revenue also was less than the budgeted anticipatory income of \$2,011,000 for that month, and the October expenses of \$1,925,861 were more than the \$1,892,000 budgeted expenses for the month.

Psychology Society To Meet at YMCA

The Midwest Society of Individual Psychology, an organization of professional counselors, graduate students and persons involved in the study and practice of psychological guidance, will meet at the local YMCA on Saturday at 7:30 p.m.

Featured speaker will be Mrs. Courtney Burroughs, a resident of Alton and chairman of the Volunteer Tutoring Program serving youth in the Alton public schools. Mrs. Burroughs will describe her activities and comment on the workings of the Volunteer Tutoring Movement in Illinois.

Mrs. Burroughs was given recognition last spring as one of six outstanding volunteers in the Tutoring Movement by Gov. Otto Kerner. She also participated within the past year in the National Public Affairs Seminar held in Washington.

C. A. MacMillan, YMCA general secretary, is immediate past president of the organization. Dr. Raymond Troyer, SIU-SW professor, also of Granite City, is an advisor.

HARRY MITCHELL

Mitchell Appointed To Detective Force

Harry Mitchell, a member of the Granite City police department, has been appointed to the detective force. Chief of Detectives George Teiler announced this week.

Mitchell, 36, has been with the traffic division for the last seven years and has been assigned to squad car, motorcycle and parking meter duties.

Assigned to parking meter duties to succeed him was Raymond Ridge, who had been the department's records clerk.

Mitchell is a native and lifelong resident of Granite City. He was graduated from Granite City high school and is a veteran of the Korean war with four years service in the Navy.

He is a member of the Metro-East Juvenile Officers Association, the Madison County Police Association, the Illinois Police Association and Tri-City Council 1088 of the Knights of Columbus.

He is married, has three daughters and a son and resides at 2415 Terminal avenue.

Mrs. Evelyn Gavin, association president, said all retarded youngsters in Granite City School District Nine are invited to attend. There will be gifts, games and refreshments.

Illegible Handwriting Delays Christmas Mail

One of the biggest problems Code will direct the mail to the postal employees face is illegible handwriting. At Christmastime, when mail volumes skyrocket, this can become a major problem, local postmasters pointed out today.

The use of ZIP Codes by mailers does help speed up the process because often if the city and state are unreadable the ZIP

Code will direct the mail to the postal employees face is illegible handwriting. At Christmastime, when mail volumes skyrocket, this can become a major problem, local postmasters pointed out today.

Another significant problem is the number of parcels delayed or actually undelivered because of poor wrapping or packing. Postal authorities urge that special care be taken to see that each package is tightly stuffed and that nothing rattles around inside.

Parcels are generally shipped in bags and often heavier items rest on top of smaller, lighter packages. The postmasters are encouraging mailers to be a bit cautious and insure all packages. All parcels should be addressed on only one side and should have the address written somewhere on the inside of the package in case the exterior wrapping should come off. It is a good idea to also enclose a list of the contents.

Poor packaging and illegible or incorrect addressing accounts for about half a million undelivered parcels each year.

Housing Authorities Pay \$29,367 to County

The Madison County Housing Authority has made payment of \$29,367 to County Treasurer George Musso in lieu of taxes, an annual procedure based on the amount of rent collected at federal housing projects in the county. It was announced this week by D. F. Brainer, executive director of the county authority.

The total included \$3476 from Garesche Homes, \$3807 from Greiner Homes in Madison; \$1167 from the Viola Jones Homes; \$4293 from Lee Wright Homes in Madison; \$5407 from the Alton 006 for the girl and \$500 for the mother to cover medical bills.

The Granite City Housing Authority makes its payment in lieu of taxes to the city for distribution to taxing agencies. The county authority has its offices in

Seebold Excavation Co. Being Sued for \$15,500

A law suit for a total of \$15,500 has been filed against A. H. Seebold Truck Service and Excavating Co., for Juanita Combs, 17, by her mother, Mrs. Irene Johnson, and in behalf of the mother, in circuit court at Edwardsville. The complaint shows that the Seebold firm had contracted with the village of South Roxana to construct sewers, and was negligent in leaving a street in a state of disrepair. It states the girl was a passenger in an auto which hit a sewer ditch, causing mother to have serious and permanent injuries. The suit seeks \$15,000 for the girl and \$500 for the mother to cover medical bills.

Goals for Area Progress Charted By Chamber Board

A 114-point program, with major emphasis on 18 objectives, was approved for the coming year at a monthly dinner meeting of the Tri-Cities Chamber of Commerce board Tuesday night.

Goals will include the following:

1. Encourage both residential and commercial property owners to develop positive action in maintaining and upgrading their property.
2. Work to develop greater consumer confidence in the Quad-City market area.
3. Continue efforts to develop the Horseshoe Lake area as a state park.
4. Work to create the best possible climate for industrial expansion.

Tourism, Highways

5. Promote tourist and convention business for this area.

6. Expedite a highway improvement plan.

7. Develop programs for quarterly meetings of special interest to light industry members of the Chamber.

8. Develop a program for contacting Chamber members on a person-to-person level.

9. Cooperate with news media in publicizing C. C. activities.

10. Sponsor annual business-industry-agriculture events.

Courses, Legislation

12. Sponsor courses in freedom vs. Communism, practical politics, economic understanding and world affairs.

13. Inform members about governmental and legislative proposals affecting them.

14. Work to assure that this area's facilities keep pace with growing needs.

15. Encourage better health standards and facilities.

16. Promote sound planning and zoning policies on the municipal and county level.

17. Encourage the development of Southern Illinois University courses to meet the needs of this community.

18. Prepare a annual military recognition program.

Committee Chairmen

Committee chairmen named so far are: G. H. Sternberg, civic improvement and development; Gerald D. Shaul, retail-commercial development; Henry D. Karandeff, Horseshoe Lake development; E. G. Schmidt, industrial development; Nelson R. Rediger, tourist promotion; Melvin O. McKay, transportation and highways; A. H. Froelich, audit; Dale Arnette, budget and finance; James G. Holland, Jr., light industry; Leo H. Kozner, membership; John S. Wagner and E. E. Veil Jr., program; Howard W. Kaseberg, program of work; E. R. Applegate, membership relations; Bill H. Terrell, public relations; Otto H. Romann, agriculture; Melvin L. Gillie, citizenship; Sam L. Meyer, Congressional action and governmental affairs; Robert M. Edmonds, education; William F. Hoelscher, health; William L. Harris, planning and zoning; and Harold R. Fischer, SIU liaison.

President Carl E. Mathias voiced optimism that much can be accomplished during the next year, and noted that Chamber committees had met 51 times during November.

Renewed Park Activity

Mathias called attention to renewed efforts to obtain a state park in the Horseshoe Lake area and reported on efforts of the East-West Gateway Coordinating Committee to qualify for continued federal highway funds. A meeting on lake area recreation needs is to be held Dec. 26; and an industrial development conference is set for Dec. 13.

Vice-President Howard W. Kaseberg announced that a political action course is coming to a close Friday night, with State Representatives Lloyd C. Harris

Enthusiastic Support for Rink, Center

Enthusiastic endorsement of the Granite City park district's proposed ice rink and recreation center planned for Wilson Park was given Monday evening by the Granite City Kiwanis and Twilight Optimist clubs in a joint meeting in the Rose Bowl restaurant.

George England, Optimist president, told the gathering "having participated in the earlier planning stages for the recreation center and realizing the tremendous asset a project of this type can mean to our community, I strongly urge you to support the park district's special election Saturday, Dec. 18."

He added, "the proposed structure will seat an estimated 3500 persons, making it available for many large gatherings when a meeting place of substantial size is necessary." England also pointed out that even small political conventions could possibly be held at the center "making Granite City a convention town," he concluded.

Also present, Herbert R. Schannott, also urged support for the bond issue, stating, "this building will provide not only a needed recreation area for our young people, but a site for civic functions and a wide variety of worthwhile community activities."

About 28 members from the two local service organizations heard details on the proposed \$475,000 ice pavilion and center presented by Emery E. Ackerman, a Granite City high school student and member of the volunteer speakers' bureau currently visiting various groups to acquaint them with the park district's community project.

Ackerman displayed architect's sketches of the structure, which

and Ralph Smith scheduled as guests, and said it is hoped to hold local discussions on foreign policy and world affairs, topic of a two-day conference he attended last week at the University of Illinois.

Kaseberg cited the importance of public understanding and support of sound zoning policies.

The board adopted a 1965-66 Warehouse as a Chamber member and heard reports on Chamber Ambassadors, membership, industrial development, education, tourism and highways.

will include an 85x185-foot concrete surface built to provide a surface of ice ideal for skating and accommodating between 700-800 skaters.

The center, he explained, will be open on all four sides with the roof rising to 60 feet at either end and extending to cover concrete walks. There also will be a 5000-square foot warming house, a concession stand with equipment designed to serve both the warming area and patio; benches and rental lockers; an office storage room and first aid room.

Other service rooms would house skate sharpening and refrigeration equipment; an ice-surfacing machine and room; and restrooms. He said an ice dump would be fenced adjacent to the building and a parking lot is planned for 100 autos.

Programs at the specially designed center, Ackerman reported, would include recreational, speed and figure skating, hockey, musical entertainment, movies, square dancing, teen dances, a picnic shelter, tumbling programs, outdoor banquet area and group activities. He added that numerous special events such as flower shows, city or county fairs, retailer shows and auto displays could easily be accommodated in the new center.

Also addressing the combined groups Monday evening was Donald A. Healey, an account ex-

ecutive with Merrill, Lynch, Pierce, Fenner and Smith, Inc.'s St. Louis office, who outlined causes in stock market fluctuations. He said his company, which operates on an international level, primarily handles conservative and established stocks as opposed to the more speculative variety.

During separate business meetings Twilight Optimists heard progress reports on the annual Christmas tree sales lot, jointly sponsored with the Granite City Optimists, which this week began operations on a 10 a.m. to 10 p.m. daily schedule.

Kiwanis members were reminded of a "ladies night," slated for Monday, at the Rose Bowl, when a group of young musicians under the direction of Wayne Scannell, will perform following a 6:30 p.m. dinner.
